PROFILE

Front-end developer with 5+ years of experience building responsive, accessible, and high-performing web applications. Specializes in React, TypeScript, Next.js, and modern CSS.

EXPERIENCE

Front end web developer - First Factory, Costa Rica

FrankCrum- USA, Tampa

2023 – 2025

Developed responsive web apps with TypeScript, React, and React-Bootstrap, enforcing strict typing for scalability. Built and maintained a Storybook component library and wrote unit tests with Jest and React Testing Library. Implemented micro-frontends with module federation, building/consuming ASP.NET APIs and integrating with Next.js and React Hooks. Tech: Next.js, React, Hooks, TypeScript, Storybook, Jest, RTL, React-Bootstrap, ASP.NET.

Front end web developer - First Factory, Costa Rica

Nation Builders

2022 – 2023

I built and maintained TypeScript React components with Hooks in a Next.js codebase, created custom Storybook-documented UI, styled responsive and accessible interfaces with Tailwind CSS, debugged issues to improve stability, and contributed to an intuitive dashboard application.

Front end web developer - Novacomp, Costa Rica

Smart Factory - EY

2020 – 2022

I delivered new features from user stories, fixed bugs, and built reusable React components in Storybook; managed state with React Query and Redux-Saga; implemented internationalization with React i18next; and worked with React, Hooks, Material UI, Axios, TypeScript, and MongoDB.

Front end web developer & UX/UI Designer - Freelance

StablePay- Blockchain/Web3 project

2018 – 2020

I designed end-to-end UI/UX in Figma/Marvel/Sketch, produced responsive wireframes and prototypes, iterated layouts from user feedback and style guides, built navigation flows for Web3 wallet connections, developed functional dApp interfaces for web and mobile, and managed delivery using Trello.
